Fancy and Plain Cake Recipes

IMPORTANT.

USE ONLY PATENT SOFT WINTER FLOUR
IN THESE RECIPES.

Owing to the variation in the strength of flour, the same proportion of raising material cannot be used in all sections of the country. It is, therefore, well to begin with small batches until the exact amount of Yeast Powder is ascertained to obtain the proper results.

Particular attention is called to the moisture and softness which cakes retain when Yeast Powder is used as a raising material. This feature has been obtained by using Potato Flour and other ingredients not contained in baking powder.

**Fancy & Plain
Cake Recipes**

Pastry Recipes

Pastry Recipes.

Puff Paste.

For Oyster Patties, Tarts, Cream Rolls, etc.

Take equal quantities of stiff dough (ice water and flour) and tough creamery butter. Roll out and fold together. Let it stand an hour in a cold place and then repeat the rolling and folding; let it stand another hour in cold place and repeat the operation a third time. Wash with egg when ready to cut.

Puff Paste, No. 2.

One pound flour, 1 pound butter, beat up the yolk of 1 egg and put into your flour with enough cold water to make a stiff paste. Roll out your dough about $\frac{1}{2}$ inch thick and place butter in center; turn the dough over the butter from all sides. Roll 1 inch thick and turn over again. Now set away in the ice box for 15 minutes. Repeat this three times, giving it about 10 minutes rest between each roll. Put in ice box or cool place again for a short time and it will be ready for use.

Chocolate Baisees.

- 2 lbs. granulated sugar,
- $\frac{1}{4}$ lb. powdered chocolate,
- 6 egg whites.

Boil together. Lay out like finger shape on dusted pans. Let dry three hours. Bake in cool oven.

Snow Balls.

- 1 lb. icing sugar,
- 1 qt. egg whites,
- $\frac{1}{2}$ oz. Cream Tartar.

Beat egg whites to stiff froth, adding sugar and Cream Tartar. Squeeze through bag and tube on paper. Bake in cool oven. Ice bottom and put two together to form a ball.

Fritters.

1 lb. granulated sugar,
1 $\frac{1}{2}$ qts. milk,
10 eggs,
 $\frac{1}{2}$ oz. soda,
 $\frac{1}{2}$ oz. salt,
1 $\frac{1}{2}$ lbs. flour.

Boil milk, then stir in flour. Mix eggs, sugar and salt and add to milk and flour. Drop on paper.

Almond Macaroons.

1 lb. almond paste,
 $\frac{3}{4}$ lb. granulated sugar,
 $\frac{3}{4}$ lb. powdered sugar,
Whites of 8 eggs.

Rub paste and egg whites together thoroughly, and add sugar by rubbing hard. Bake in temperate oven.

Macaroon Rings.

- 1 lb almond paste,
- 1 $\frac{1}{2}$ lbs. granulated sugar,
- $\frac{1}{4}$ lb. flour,
- Egg whites to make a medium dough.

Squeeze out with jumble machine. Bake in medium oven.

Washington Slices.

- 1 lb. granulated sugar,
- 1 lb. butter,
- 9 eggs,
- 2 $\frac{1}{2}$ ozs. Yeast Powder.
- 2 $\frac{1}{4}$ lbs. flour.

Roll dough $\frac{1}{4}$ inch thick, then roll up like jelly roll and cut about $\frac{1}{2}$ inch thick and fry in hot grease like doughnuts.

Apple Fritters.

Peel carefully and slice your apples, soak them in a mixture of powdered sugar, lemon juice and brandy. Then dip them in the following batter, fry them in hot lard and dust with sugar.

BATTER.

1 pound flour, 2 eggs, $\frac{1}{2}$ pint salad oil, little salt and milk enough to make thick batter; almost any kind of fruit can be used in place of apples.

Cocoanut Macaroons.

1 lb. cocoanut (fine shred),
 $\frac{3}{4}$ lb. granulated sugar,
 $\frac{3}{4}$ lb powdered sugar,
Whites of 8 eggs.

Rub cocoanut, egg whites and sugar together thoroughly. Bake in temperate oven.

Cream Puffs.

1 pt. water or milk,
7 ozs. lard,
12 ozs. flour,
12 eggs,
Salt.

Boil water and lard together until it foams. Add flour, and rub eggs with same while still warm, and add a little Yeast Powder. Bake 20 minutes in hot oven.

Cream for above:

1 qt. milk,
3 eggs,
6 ozs. sugar,
2 ozs. corn starch.

Beat eggs and sugar together. Add milk, starch and a little salt. Cook until stiff and flavor with vanilla when cool.

Pie Crust.

1 lb. flour,
6 ozs. lard,
 $\frac{1}{2}$ oz. Yeast Powder,
Moisten with water or milk (salt).

Lemon Pie.

- $\frac{1}{2}$ lb. sugar,
- 1 pt. water,
- 2 egg yolks,
- 1 oz. corn starch.

Add the grated peel and juice of 2 lemons. Set the vessel containing the mixture in a pan of boiling water and stir until it thickens.

Custard Pie.

- 4 ozs. sugar,
- 4 eggs,
- 1 qt. milk,
- 2 ozs. corn starch.

Beat eggs and sugar together. Stir the mixture when adding starch. Then add milk and a little salt,

Cocoanut Pie.

Use same ingredients as custard pie, and prepare the mixture in the same way, adding $\frac{1}{4}$ lb. grated cocoanut.

Pumpkin Pie.

- 3 lbs. sugar,
- 22 eggs,
- $\frac{1}{2}$ gal. pumpkin (solid fruit),
- 6 qts. milk,
- $\frac{1}{2}$ lb. bread crumbs (fine),
- 2 lbs. flour,
- 2 ozs. cinnamon,
- 1 $\frac{1}{2}$ ozs. ginger,
- 3 ozs. salt.

Beat whites of eggs separately. Stir balance together, then mix.

Bread and Fancy Yeast Baking.

Compressed Yeast Sponge.

The milk or water should be used at 85° Fahrenheit. The shop and the flour should also be kept at the same temperature. The sponge is set in one end of the trough; the yeast dissolved in part of the liquid, and enough spring wheat flour is mixed into all the liquid to make a smooth, medium sponge. The sides and bottom of the trough must be kept scraped, so there will be no flour underneath the sponge to form lumps; then dust a little flour on top and close the trough. A sponge made of weak flour is ready for use as soon as it commences to fall. Sponges made of strong flour can drop $\frac{1}{4}$ inch, but no more, as they will lose their strength if they do. The quality of the goods depends, in a great measure, on the character of the sponge used.

Sponge.

$\frac{1}{4}$ pound compressed yeast, 1 gallon milk or water, or half of each; strong flour enough to make a medium sponge. If large sponges are made less yeast can be used.

Boston Brown Bread.

$\frac{1}{2}$ lb. Graham flour,
 $\frac{1}{2}$ lb. rye flour,
 $\frac{1}{2}$ lb. wheat flour,
 $\frac{1}{2}$ lb. corn meal,
1 pt. molasses,
1 oz. salt,
1 oz. Yeast Powder.

Mix with water or milk enough to make soft dough. Bake 4 hours in cool oven.

Graham Bread.

2 buckets lukewarm water,
6 pts. molasses,
7 ozs. compressed yeast.

Make medium dough, adding Graham flour. Let dough stand until raised light, then work over, letting it stand again.

Malt Bread.

This kind of bread is made under many different names: Mother's Bread, Malt Pepto, Malt Cream, Mother's Best, etc.

7 gals. water (90 degrees),
2½ lbs. corn flour (dry),
1 lb. Malt Extract,
1½ lbs. salt,
1 lb. lard,
10 ozs. compressed yeast,
80 lbs. flour.

Observe the following rules: Do not add yeast until half the dough is mixed in; add lard when dough is at least half mixed. Work dough thoroughly and dry. When well mixed let the dough mixer run ten minutes longer. Now put dough into the trough to raise. Allow the dough comparatively little space at first in the trough, pushing the board back gradually. In about 3 hours it is generally ready to work over. But it wants to be good and ripe; say, if you press on it with your fingers it must break around that place. In $\frac{3}{4}$ hour more it is ready to mould up into loaves. Give only light proof in the tins and bake in medium heat with steam in oven.

A very good mixture for this kind of bread is obtained from 3 parts Minnesota hard spring patent, 1 part Kansas patent and 1 part winter wheat patent.

General Rules for Using Malt Extract.

As a rule, Malt Extract is not added to the sponge, because when added to the sponge it works too soon and the dough will always act as if young, even when it is almost sour; that means it will draw large blisters and relax; it does not stand up and the loaves will flatten when moulded up.

When changing brands of flour it may be necessary to change the usual quantity of Malt Extract. If very hard flour is used, proportionately more Extract may be taken.

Don't use Malt Extract by guess, always have it carefully and exactly weighed or measured.

Have it always thoroughly dissolved, or else the bread may be streaky.

Weak yeast may be improved by setting a "ferment" with the Malt Extract. For this purpose dissolve the Extract in about ten times its weight of water (about 95 to 100 degrees) and add the yeast.

Fermentation will soon start, and in about an hour this ferment may be added with the rest of the water to make the dough or set the sponge. By this process, however, the amount of sweetness otherwise caused by the same quantity of Malt Extract in the dough, will be less, and perhaps a little sugar may have to be added to certain doughs.

Salt Rising Bread.

Solution called "emptyings,"

2 tablespoonfuls of corn meal,
(not bolted),

$\frac{1}{2}$ teaspoonful granulated sugar,

$\frac{1}{4}$ teaspoonful gro. black pepper,

$\frac{1}{4}$ teaspoonful Jamaica ginger,

$\frac{1}{4}$ teaspoonful B. C. soda,

$\frac{1}{2}$ pt. sweet milk (scalded).

Mix or stir thoroughly in a vessel. Set this vessel of emptyings into a vessel of warm water or steam, keeping same temperature for about 14 hours, or whenever it is light body and very sour. Make a stiff sponge of 4 qts. warm water and winter wheat flour, adding emptyings. Leave stand until sponge is ripe. Make stiff dough by adding 3 qts. water and handful of salt, using winter wheat flour. Scale 1 lb. 2 oz., and grease around sides. Let prove one hour. Bake in slow oven. This bread does not get as brown on top as other bread.

Cream Bread.

Also for Queen Loaf, King Loaf and Crimp Crust Bread.

For a batch of 3 pails at 16 qts. take:

- 1 qt. Malt Extract or 4 lbs.
granulated sugar,
- 7 lbs. corn flour (dry),
- 2½ lbs. salt,
- 4½ lbs. lard,
- 1 lb. compressed yeast,
- 150 lbs. all spring patent flour.

The temperature of this dough should always be at least 85 to 90 degrees, even in summer. Let dough come up nearly to drop, then knock it down and let it come again. Mould up in crimped pans at once and don't give full proof.

Vienna Rolls.

Take Vienna bread dough, break into 2-oz. pieces, roll them round and place them in cloth-covered boxes. When half proved stamp them with a Vienna roll stamp and turn them over. When three-quarters proved turn them over again. Wash them with water and bake in steam oven the same as Vienna bread.

Cinnamon Cake.

Make a soft smooth dough out of 6 lbs. milk sponge, 1 lb. butter, $\frac{1}{2}$ lb. sugar, 4 eggs, flavors; let raise twice and scale and mould in suitable pieces; let them lay for a few minutes and roll out flat, about half an inch thick; place them on baking pans; wash over with melted butter; let raise; then strew a mixture of powdered sugar and cinnamon on top and bake in medium oven. To make the cake rich you can place small pieces of good butter, three or four inches apart, and chopped almonds on top before baking.

Apple, Peach and Plum Cake.

The dough is rolled a little thinner than for cinnamon cake, and even slices of fruits are laid all over the cake in symmetrical rows. Sugar and currants are strewn on top. Let raise and bake in hot oven. Cream may be used in place of the sugar and currants.

Berry Cake.

Proceed the same as for apple cake. The berries must be picked and spread over the cake. Cream composed of the following ingredients is then placed and leveled on top of the berries: Scald $\frac{1}{2}$ lb. of farina in 2 quarts of boiling milk; then add 1 lb. of sugar, 5 yolks of eggs, a little yolkaline and flavor. Let raise and bake to a light brown.

Cheese Cake.

$\frac{3}{4}$ lb. sugar, 6 ozs. butter, 8 eggs, $\frac{1}{4}$ lb. flour, 4 lbs. pot cheese; cream the butter and sugar and gradually work in the yolks; beat the whites to a stiff snow; thin the cheese with a little milk and mix the whole together lightly; then cover a pan with a thin sheet of cinnamon cake dough and spread the mixture on top; wash over with egg; strew a few currants on top and bake hot.

Bath Buns.

Work 1 lb. of coarse sugar into 5 lbs. of cinnamon cake dough; break out in 2 oz. pieces and place them on pans; do not mould them; wash over with egg; let prove and bake in hot oven.

Coffee Wreaths.

Roll out some cinnamon cake dough into long thin strips; braid three together and form into a round wreath; set to raise; wash with egg; strew coarse sugar and chopped almonds on top and bake hot. They may also be iced with vanilla icing after baking.

Zwieback.

Roll out the above dough like small fingers. Set close together; do not let them rise too much; bake light. Let stand one day; then cut each biscuit in two with a sharp knife. Roast well, brown on both sides and dip in cinnamon or vanilla sugar.

Long Currant Buns.

Take above dough, roll out in square pieces $\frac{1}{4}$ inch thick and 10 inches wide; sprinkle with cinnamon sugar and currants; double over from both sides; set the cut side up after you cut the whole strips in small fingers with the scraper; set them close together; allow it to rise; bake in good heat and frost thick with vanilla icing.

Schnecken.

Roll out same as dough for currant buns; sprinkle with currants, cinnamon sugar and some chopped almonds; wash edges with little egg; make into a roll; cut into narrow pieces; set cut side up on greased tins; allow it to rise well; then bake hot and ice.

Hot Cross Buns.

Same dough as above; cut in small pieces; round up like biscuit, but when half risen press each one down with a cross cutter, thus +; wash over with butter and dip in coarse or fine sugar; set to rise and bake hot, or wash with egg, and, when baked, ice them.

Turk's Heads.

Weigh off the above dough in pieces, about 12 to 14 ozs.; mix in raisins and set to rise in buttered Turk's head tins. You may sprinkle the moulds in the bottom with sliced blanched almonds; more butter, sugar, citron and eggs may be added if not found rich enough.

Stollen, or Coffee Cake.

Work up a suitable quantity of currants, raisins and citron with cinnamon cake dough; the dough is stiffened up a little; let raise once and scale and mould in the shape of Vienna bread; then roll down the center, lengthwise, with large rolling pin; grease the outer edge same as for milk rolls; turn over; roll down a little more; place them on pans; wash with eggs; strew chopped almonds on top; bake when three-quarters proved and ice while hot.

Ring and Pretzel Cake.

Roll out 5 lbs. cinnamon cake dough; place on top 1 lb. butter; fold and roll three times, the same as for puff paste; then cut off strips and twist them from left to right, and place them on pans in shape of rings, pretzels, crescents, etc. Wash over with eggs; strew chopped almonds on top; bake hot and ice while warm. It is understood that the dough must be kept cool and the goods raised in a cool place, otherwise the butter will run from the dough.

Cincinnati Yeast Powder

“The Original”

**It is the Latest Discovery in the
Art of Fine Baking**

Can be used in place of Ammonia, Baking Powder or Cream Tartar and Soda Mixture with better results. Contains POTATO FLOUR and other ingredients for giving moisture and fine rich color to cakes, biscuits, doughnuts, etc., when baked. Is composed of healthful food products and contains no injurious chemicals. Works absolutely uniform and keeps indefinitely in any climate. Has more leavening power or strength than baking powder.

Sold in Cans Only

PREMIER PRAND

Fruit Icing Cream

FLAVOR AND COLOR COMBINED

Can be used in all Icings, Layer Cake Creams,
Marshmallows, Cake Batters, Ice
Cream and Ices.

PREMIER ICINGS have a strong color and fine flavor. They are much stronger than flavoring extracts and more economical. No boiling is required.

FOR ICING, add a small quantity of Icing Cream, to produce the desired color. This will give the proper flavor and gloss.

PREMIER ICING IS NOTED FOR ITS PURITY
FLAVOR, COLOR, STRENGTH, Etc.

Prepared in the Following Flavors:

ORANGE	STRAWBERRY	ROSE
LEMON	RASPBERRY	BANANA
CARAMEL	PINEAPPLE	CHOCOLATE
VANILLA	PISTACHIO	WINE FLAVOR
CHERRY	ALMOND	MAPLE

LEMON COMPOUND

Four times stronger than Extract of Lemon

Does not contain alcohol, and gives a more
Natural Flavor than ordinary extracts.

It is superior to Extract for baking purposes

Because being non-alcoholic it does not
bake out of the goods.

Because it gives the **Natural Flavor** of
the whole lemon.

Because it contains **no impurities**, and
consequently is not injurious to
health.

Because the consumer does not pay al-
cohol prices when the strength of
the flavor is taken into considera-
tion.
